is our sale of kid gloves, don't fail to attend.

HORN & NORDEN.

#### OHIO STATE NEWS.

##### NOTES OF INTEREST TO OUR READERS IN OUR OWN STATE.

Concise and Condensed Telegraphic Reports For Several Days—An Interesting Collection of Items From Here and There Throughout the State.

MARSHALL, O., Sept. 29.—After an all night's session the miners agreed to return to work and leave their grievance to a board of arbitration. Everybody is jubilant over the conclusion of the strike, and on every hand is heard praise for the splendid work of the state board, whose members came unscathed and have succeeded in effecting a basis of settlement in one week. The following are the resolutions adopted:

RESOLVED, That we, in convention assembled, representing the employees of the mine operators of the Marshall district, agree to submit for a settlement the matters of difference between said employees and their several employers to a local board of arbitration as provided in Section 10 of the arbitration act of Ohio, one arbitrator to be selected by said employees, one by said employers and the third by the two thus chosen.

RESOLVED, That the committee appointed by the meeting for the purpose be authorized and directed to sign the necessary articles on behalf of such employees for such arbitration if said operators agree thereto.

RESOLVED, That we recommend to our constituents that they go to work in the several mines of the district as early as practicable, and not later than Tuesday, pending the result of arbitration.

##### EXTRAORDINARY INCIDENT.

Pitcher's Arm Breaks and Ball Hits Batman and Causes Injury.

KENT, O., Oct. 2.—During a ball game at Deerfield, in the eastern part of this county, the pitcher of one team broke his arm at the elbow while throwing a ball. Another player was at the bat, and the ball hit him on the head, driving him insane. He became violent and had to be locked up.

##### BREACH OF PROMISE.

Plaintiff 59 and Defendant 73, and the Verdict For \$1,000.

POMEROY, O., Sept. 29.—In an action for breach of promise, brought by Gertrude Young, a widow, 59, against Henry Dichter, 73, the plaintiff was awarded damages of \$1,000.

##### Woman Kills a Baby.

CLEVELAND, Sept. 28.—A case of child murder was reported to the police, in which a babe a year old met death at the hands of an enraged woman. A week ago while Mrs. Mary Burdick of 18 Berg street became engaged in a quarrel with another woman who attacked her with a club, the child got in the way and received the blow intended for the mother.

##### Was Despondent.

ASHTABULA, O., Sept. 29.—Alfred Holso, a Finn, at Ashtabula Harbor, in a fit of despondency Thursday afternoon cut his throat from ear to ear, and died in three minutes. His wife returned to Finland last fall, and he was unable to get money to follow her.

##### Saved Her Baby, but Will Die.

AKRON, O., Sept. 28.—Mrs. Ann Palmer, 35, died from burns received by the explosion of a gasoline stove. Mrs. Palmer's dress caught fire from the flames, which threatened the crib in which her baby lay. She saved the child's life at the sacrifice of her own.

##### Woman Fatally Burned.

ZANESVILLE, O., Sept. 29.—While Mrs. Charles Cary was making apple butter over an open fire her clothing became ignited, and before assistance could reach her she was burned almost to a crisp. She died in great agony.

##### Woman Fatally Burned.

ZANESVILLE, O., Sept. 28.—While Mrs. Charles Cary was making apple butter over an open fire her dress became ignited, and before assistance could reach her she was burned in a horrible manner. She can not recover.

##### AMUSING THE QUEEN.

How Maids of Honor Are Selected and Some of Their Duties.

Maids of honor are chosen by the queen herself from among the daughters of peers, who, if not themselves connected with the royal household, are personal friends of her majesty. A letter is always sent to the parents of the young lady requesting that as a personal favor to the queen she may be permitted to attend at court. As the position is undeniable and the salary is \$200 a year, the request is invariably accepted, and the newly chosen maid receives from the lord chamberlain the command for her first "wait."

The first thing brought to the maid of honor is her badge, which is a miniature picture of the queen set in brilliants and hung from a ribbon. Just before the dinner hour the maid of honor in waiting has to stand in the corridor outside the queen's private apartments. She carries a bouquet, which on entering the dining room she lays at the right hand of the queen's plate.

The maid of honor sits at dinner next to the gentleman on the queen's right. This rule is, however, relaxed when royal guests are present. After dinner, unless otherwise commanded, the maid of honor retires to her own room, whence she is frequently called to read, sing, play the piano or take a hand at cards.

As regards this last, the household have always to be provided with fresh coin money, for the queen is not supposed to handle money which has ever been in circulation.—New York Advertiser.

## OF PUBLIC RECORD.

### MATTERS OF INTEREST ON RECORD IN THE COURT HOUSE.

Real Estate Transfers, Marriage Licenses, Probate Court News, Ditch Sales, etc., etc.

#### REAL ESTATE TRANSFERS.

FREEDOM TOWNSHIP.

SYMMES' HOLE UP TO DATE.

A Call For Volunteers to Go to the Long Lost Babylonians in It.

That the crust of the earth is formed in layers no one will dispute, and that all substance on the surface of the earth is drawn by some force toward the earth's center is also undeniable. This is called centripetal force. To admit the existence of this force is equal to the admission of a counteracting force called centrifugal.

According to every experiment and all philosophical reasoning, there must be a line of equilibrium drawn somewhere between the center and the circumference of the earth. The exact location of this line will always be determined by the motion of the earth. It is on this line that the external and the internal forces meet in deadly conflict, striving for gravitation's power and the enforcement of their laws. The friction produced by these two forces must be the source of all internal heat and the eternal fire. It is these two opposing forces that form and sustain the immense balance wheel called "the earth," which is 25,000 miles in circumference, and exceeds 300 miles in thickness, including the lava belt in the center.

The irregular motion of the earth will change the central line of gravity and cause an eruption of lava either external or internal. The earth when viewed as a whole is a unit, and so are the laws which operate it, whether applied to the external or the internal surface.

The law which reverses gravitation on this equalizing line has given us two earths in one, or a world within a world. The friction and heat of the earth at the equator are so much greater than they are at the poles that the law of electric equilibrium will produce an electric current to meet the demand for light and heat.

This internal earth is a counterpart of the external in all things, except its vastness and its Nile and its Amazon are not quite so long. Neither is its equator nor its zones nor its poles quite so high. Nature, with an impartial hand, has withheld no good thing from this new world that can be tasted of by any other. Humanity
